

Lighting the Skies. Guiding the World.

CN09S

LANDING LIGHT

High Performance LED White
Landing Light for Enhanced Visibility

The CN09S Landing Light is a high-intensity LED landing light engineered for maximum illuminance and long-range performance. Built for the demands of aviation, it delivers powerful, reliable lighting to support safe landings in all conditions. Designed for efficiency and durability, the CN09S ensures optimal visibility while minimizing power consumption.

TECHNICAL SPECIFICATIONS

Operating Voltage	11V – 28V DC
Power Usage	12V – 0.9A (11V – 28V – Max Power Usage : 12W)
Brightness	1600 Lumens
Beam Angle	13 Degrees
Light Source	High Intensity LED (White)
Material	Aluminum (Aviation Grade)
Lens	UV resistant Polycarbonate
Protection Rating	IP67
Mounting	Flush Mount
Weight	400g (each unit)
Certifications	Experimental Only
